Comfortable, stable and robust safety boot. Upper made of water-repellent and durable microfibre. The boot has a microporous membrane that keeps your feet dry even in worst weather conditions. Composite toe cap and a flexible, textile penetration-resistant midsole meeting PL standard.

Midsole made of PU for optimal shock absorption. Slip-resistant outsole made of PU. Anatomically designed insole, made from soft PU material with a textile surface that offers excellent moisture absorption.

This boot is suitable for work in construction, building, transport, maintenance, repair and operations. Women's last in sizes 35-39.

Waterproof thanks to the microporous membrane  
Upper material in water-repellent and durable microfibre

Non-metallic composite toe cap  
Flexible, textile penetration-resistant midsole (PL standard)

Anatomically shaped insole made of soft, shock-absorbing PU with a moisture-wicking textile surface

Slip-resistant PU outsole
