Protective Leather Boot from Blåkläder's Elite Collection that truly delivers on its promises. This top-class ankle boot ensures very high durability, abrasion resistance, and above all, essential protection.

The upper part of the shoe is equipped with XRD® M-Guard, a shock absorbing and flexible material that absorbs up to 90% of the energy from impacts, reducing the risk of injuries.

For maximum comfort and ankle support, the inside of the boot shaft has a high-quality PU foam in two different densities. The composite toe cap, soft nail penetration protection, and additional TPU-reinforced toe and heel areas offer safety and long-lasting durability.

The insole, anatomically designed for optimal comfort, is made from a soft PU material and features a textile upper with excellent moisture absorption. Reflective details are located on the heel and side.

Ideally suited for outdoor work in construction and building, transportation, maintenance, repair, and operations. Women's last in UK sizes 2-6.

Upper material:

Oily treated leather

Fit:

Wide

Nail protection material:

Textile PS

Toecap material:

Composite

Functionality:

Metatarsal Protection, Padded shaft edge, Antistatic properties, ESD approved (confirms with IEC 61340-5-1), Heel reinforcement, Oil resistant outsole, Reflective details, Toe reinforcement, Water repellent
