

Sizes

35-48

Certifications:

EN ISO 20345:2022 S7S FO SR HRO SC LG

A durable and hard-wearing boot for those who work hard – regardless of weather or surface. The upper is made from soft, flexible full-grain leather combined with a waterproof membrane that keeps your feet dry even in the toughest conditions.

For maximum comfort and ankle support, the inside of the boot shaft has a high-quality PU foam in two different densities. The Freelock system makes it easy to tighten and adjust the fit throughout the day.

The boot is built to withstand demanding environments: a flexible textile nail penetration protection meeting PS standards, a composite toe cap, and an extra reinforced toe and heel cap made from durable TPU.

The insole is anatomically designed for optimal comfort, made of soft PU material with a textile surface that provides excellent moisture absorption.

The slip-resistant nitrile rubber sole ensures reliable grip on ladders, uneven terrain, and slippery surfaces.

Best suited for outdoor work in building & construction, transport, maintenance, repair and operations. Women's last in sizes 35–39.

Waterproof thanks to the membrane Freelock system

Metal-free composite toe cap

Flexible non-metallic nail protection in PS standard
Anatomically designed insole made of soft, shock-absorbing PU

Sole design provides stability and support on ladders and uneven surfaces

Slip-resistant outsole made of nitrile rubber

Colors

Lining:

Membrane

Upper material:

Full grain leather

Fit:

Wide

Nail protection material:

Textile PS

Toecap material:

Composite

Functionality:

Freelock, Antistatic properties, ESD approved (confirms with IEC 61340-5-1), Heel reinforcement, Oil resistant outsole, Padded boot shaft, Reflective details, Toe reinforcement, Heat resistant outsole, Waterproof, Breathable insole

Insole material:

Textile, soft PU

Sole material:

PU midsole, nylon shank, Nitrile outsole

Lining material:

Polyester

Shoe size:

35-48
