

## Sizes

35-48

---

### Certifications:

EN ISO 20345:2022 S7S FO SR HRO SC LG

---

A waterproof and durable safety shoe in a strong textile upper material with reflective threads and a TPU-reinforced toe part.

Composite toecap and a soft, flexible penetration-resistant midsole that withstands the tough demands of 3 mm nails (PS).

The friction outsole in nitrile rubber is developed to provide a good grip even on snow and ice.

The insole, with anatomical support, is made of a soft PU material covered with a textile surface with good moisture absorption.

The membrane will keep you dry throughout the day, and the Freelock system makes jumping in and out of the shoe easy.

Best suited for outdoor work within building and construction, transport, maintenance, repair and operation. Women's last in UK sizes 2-6.
