

Sizes

35-48

Certifications:

EN ISO 20345:2011 S1 P SRC ESD

Open sandal with good protective capacity from Blåkläder's Elite collection. The insole is made of anatomically soft PU leather with good moisture absorption, which in combination with the sandal design makes it extra suitable for indoor and outdoor work during the summer.

The sandal opens and closes with velcro straps, has a toe cap in aluminum and a soft penetration resistant midsole that makes it extra movable.

The protective sandal is best suited for work on construction, transport, maintenance, repair, and operation. Women's last in sizes 35-39.
